

The Mathematical Association of Western Australia 2009 Professional Development Series

The Series

A set of four workshops to be conducted for those teachers of lower secondary Mathematics who do not have Mathematics training or qualifications, to expand their professional knowledge and capabilities.

Each workshop will be held in both a North of the River venue and a South of the River venue. So choose your most convenient venue.

The workshops will loosely follow the structure of a teaching and learning lesson or set of lessons. Drawing on the presenter's experience in many locations and over many years, of what worked for him and what he sees works for others.

The focus is not on teaching mathematics content, but on how to present content to best engage students as learners and how to enthuse learning of Mathematics.

Topics

- | | |
|-------------|--|
| Workshop 1: | Getting started to engage in learning |
| Workshop 2: | Adopting an Investigative approach |
| Workshop 3: | The importance and role of problem solving |
| Workshop 4: | Assessing for learning and learning for assessment |

Workshop abstracts are available on the MAWA Website www.mawainc.org.au

Presenter

Chris Fraser is Deputy Principal at Padbury SHS, and has been a teacher of mathematics in government schools now for over 30 years. He is a committee member of MAWA and has been active as a presenter to Conferences and Secondary Convention over many years.

He will be drawing from his own successes in the classroom, acknowledging his own failures, because not everything works all the time or for everyone. He was a member of the Consultative Group that developed the Mathematics Progress Maps throughout the 1990s and was one of the authors of the *Working Mathematically in...* series of publications for MAWA.
